"Timeline War, Covid-19 Narrative and the Attempted Planetary Takeover  
(Global Energy Update, March 2020)"

Presented by Magenta Pixie

hello everyone I would like to apologize for not being online before today so today is the 21st of March and with what's going on in the world I have been called to speak as all of the spiritual leaders starseeds lightworkers truthers they will all have that feeling that call to speak and obviously I got this call quite a few days ago but I have been doing two things and which is why I haven't been online before today number one I've been processing all the new information coming through from the nine because they download information to me at the moment anyway about sort of 24 hours before things are occurring so I'm getting like a 24 hour information and download prior to things that are occurring the reason for that is because of the real-time play due to the fact that there is a conflict going on to put it nicely the information is not coming in at the moment ages beforehand because that is then put into the collective and that can be remote viewed by other groups so the the collective psychic awareness of the aware individuals is being sort of protected in this bubble so that by the time it's remote viewed it's already happened and that's kind of happening on

both sides anyway that's one reason I was processing all the new information coming in dealing with my own personal issues with what's happening as everyone will be going through that just because you are a star seed or in touch with higher density beings it doesn't mean that you're immune from what is occurring and your own issues you will have more tools to cope than the average person but she won't be immune and then of course the other and why I haven't been online until now is I have been putting selfishly if you like but mothers will do this my children first I wanted to make sure my children were all okay with this and that they all had everything that they needed and my parents and I just wanted to know that my family was in place and okay and obviously this huge awakening that's taking place right now is including my own family members so I'm giving them a crash course in what's going on as I'm sure you are too so that's the reason why I haven't been online until now now what I'm gonna do here in this talk is something I haven't done before as I've said there is a Great Awakening going on right now unprecedented awakening on multiple levels which I'm sure everyone listening to this who's already familiar with this information will be aware of this and because of that I am going to take into account that complete and utter newcomers to this situation may be finding their way to this video so I'm going to be addressing the awakened individuals that are already familiar

with this story or and with my work it may be the first time you've found me if so hello welcome to my youtube channel or wherever you're viewing this from but if you're already aware of what's going on I'm going to address you as an awakened individual obviously there are people who followed my work for many years read my books so you know we're family already huh hello everyone hope for a well and then of course we have newcomers who are not only new to my material they're new to the entire story they believed that life as they were living it up until a few days ago was life and whilst there are still a lot of people within that current narrative and believing that current Navitus obviously there are those who have very very quickly woken up to the fact that something is not right and this is huge the individuals who are believing the narrative are a lot of them are in a situation where they believe the narrative but then they've got this little niggling voice saying I don't know if this this just doesn't feel right something feels off because they're all at home and they're not out at work called see not everybody but the majority of the world is at home is not working many people do not work from home so they are at home having to do things like cooking and gardening and home educating their children which is wonderful by the way but they have time to listen to that voice and what I mean is for many people for many many years it's been a little niggling voice in the back of their mind hold on one second

I'm having a cup of tea brought to me here green tea thank you honey thank you very much thank you my dear husband I'm actually on honeymoon officially we made our lovely handfasting which we had last year we made it legal on I've lost track of days we're Saturday today so we we made our union legal on Tuesday so four days on honeymoon but yeah obviously were at home working and everything else reason why I've got some tea here I will explain I'm actually losing my voice no I don't have any symptoms of any kind of virus but I've been talking so much that I am actually losing my voice I think I've got maybe a little bit of laryngitis going on there who knows so I'm gonna have this teeth always weak so as I was saying for many years individuals many individuals have been walking around living their life with this little niggling voice at the back of their mind so they're going to work they're focusing on work family money stressful problems everything else that comes with our system and this an it little niggling voice at the back of their mind that's saying something just is not quite right with the way this world is set up or that voice may have been louder as in I don't agree with this political strategy or I don't I don't I can't believe this article like this right in this newspaper or whatever it may be there's been a collective awakening going on for a long time but this little niggling voice that has been there even if at times it's shouted at people they are so very busy with their life their work their family

their their situation money the worries based chakra as in real world stuff that they haven't really had time to focus on that niggling voice and what's happening now is that as people are taken away from that system that infrastructure they now have time to listen to that niggling voice this awakening it's not necessarily new even to these people who are newly awakened they're not actually newly awakened they've known about these things or known or felt for a long long time and they just simply haven't had time to look into it I've actually had people say to me before I believe what you're saying Magento but I just don't have time to sit and search it all you know I've got to do this I probably that I have a family I have children I have health issues I have an elderly parent I have a job whatever it may be they haven't had time and now for the first time so that's awakening isn't necessarily brand new there was a seed there already and they've now got time to devote to that so what I'm going to do here as I go through this talk this presentation or whatever is to address two groups of people so I'm gonna talk to the awakened individuals so we're looking at within that group we have an awakened group and within that group we have say light workers and star seeds and we have individuals that may call themselves truth seekers truth is conspiracy theorists whatever name you want to give them so we're looking at five million for me awaking from the vigils within that so I'm going to be addressing you and then I am going to

translate what I'm saying for a newly awakened individual so that if they do find their way to this video they can follow what I'm saying um that might be a bit boring for you guys who already know this stuff so please bear with me and to the newcomers I'm sorry a lot of this information may be absolute information overload sorry about that as well

however we are now in a situation we are now in a time where it is no longer a luxury to sit back and learn this stuff it's kind of happening now we're slap-bang in the middle of it this is the end time this is a combination period of a long long long history and we we don't want to say we don't have time we do it's important that we remain not rushed we do have time what I'm saying is I now need to address many different groups of individuals at once and so some of you are going to be bored and others might be overwhelmed so just bear with me wherever you are you're meant to be where you are it's fine so let's let's get into it and let's begin I'm gonna call the newly awakened groups light workers and start II there's one group truth seekers and truth is is the other group of course these are overlapping but there are many different mindsets there are many different perspectives and opinions and ways of seeing the world within that group as you know and then we have the newly awakened which are a whole new group and have many many reasons why they're newly awakened I'm not necessarily talking about two that I'm addressing the newly

awakened now I'm not talking about  
spiritually awakened you do not have to  
be spiritually awakened to understand  
this material because I'm talking about  
what is going on in the real world the  
physical world that you see around you  
I'm talking about the whole situation to  
be with the virus and the shutdown that  
is the the core point of this talk for  
you the newly awakened group so just  
doesn't matter if you don't really get  
the rest of the content we're still  
going to get the information you need  
obviously for the hikes workers and the  
starseeds we are talking here about  
what's occurring in the  
higher-dimensional situation what's  
occurring within the timelines and how  
we can despite our physical separation  
right now how we can continue to hold  
the timeline that leads to an ascension  
process so I'm talking on multiple  
levels here about many different things  
all at once  
and the truth is same with you you  
will get information regarding the virus  
and the shutdown and you know what  
people are calling a conspiracy you'll  
get that as well you don't need to take  
any notice of the spiritual information  
so I've got these three groups I'm going  
with at the same time so the newly  
awakened group at the moment have no  
idea what is going on they are just  
having to rely on what they're hearing  
on the news what the government is  
saying what's being posted all over the  
you know the government websites and  
they're feeling quite lost because  
they're kind of thrown in into a reality

that they never dreamed could ever really exist  
so because it's existing right now those individuals are thinking well a this is either the worst killer virus that we have ever had on this planet and it's got to be  
neumes day horrific and they potentially have gone into an end-of-the-world kind of scenario way of thinking you have another bunch of of unaware individuals that are they haven't faced their own collective trauma and shadow so they are thinking to themselves I don't want anything to do with this I don't want anything to do with this situation so I'm going to pretend that it's not existing and I'm going to stay in my house and I'm going to do some guy and you know read that book I've needed to read trade is all clean that the cupboards or whatever they're doing and I don't want to know that's okay if that's where you are and there are many other reactions some people are taking this very well and are quite calm others are angry because they don't believe for a second that this can possibly be so severe that the system has to shut down that they're right of course but they don't have the information in front of them to give them the confirmation they need of their own knowings they are angry because it just just just doesn't seem in precaution on the correct then there's a whole other bunch of individuals are very very angry because their social system has been shut down so you have to see that individuals are go to work or

come home they watch a film they go to  
bed have their tea got a bear bid me  
that Monday to Friday Friday night they  
go down the pub Friday night is the  
night you live for you work all week you  
slug it out all week at a job you hate  
to earn just about enough to scrape by a  
fat and thank God for the pub on a  
Friday night that keeps them going  
that's gone that's gone that's had the  
rug that's that's the rug being pulled  
out from underneath them but I have  
their anchor anymore yeah they can go  
and get some drink from the you know  
from the local chop but that's not what  
this is about this is socializing humans  
are social animals and it's not just  
about the pub obviously we've got  
theaters and you know your freedoms  
there's there's a whole world for you to  
enjoy and that's stopped  
so people are bewildered frightened  
panic and grief and anyone who's been  
following this story for quite some time  
will be fully aware of this situation  
and will be fully prepared but what I'd  
like to say to these newcomers is to us  
the individuals who I'm calling liked  
workers starseeds spiritually away from  
the truth seekers and  
if there is like to us this situation  
that's occurring now is not a surprise  
or a big shock in the same way that it  
is to you now I'm not saying that any of  
us knew that it would be a virus but  
this shutdown of society is nothing new  
to us we are fully aware that this could  
happen one day and probably would many  
of us have known about this for many  
many years and have been preparing for

this for many years I personally heard this information in 1993 so we're looking at what 27 years if my maths is correct so this is no surprise to us we're prepared for the shutdown of society and what it means and what it may mean and how it may affect us we didn't know it would be a virus we knew that that was one of the possibilities but we've known that this would occur at some point or was very likely to we didn't know for sure but to be honest Nostradamus predicted this in I believe miking 5 so I mean this isn't something new I mean you know this has been handed down from religious groups not religious groups but shamanic groups indigenous peoples were Mayans that you know that many many many different cultures have handed ground information about these times I mean it's in the Bible end of days

The Book of Revelations you know it's all there that's yeah that's where we are does this mean that this is the end of the world that this is a killer virus that's going to wipe us all out and that we're all going to die or does it mean that the virus isn't really a threat but that the the government or the shadow government or the deep state whatever you want to call it are going to kill us all these are the two main fears here this tuesday scenario either way and I'm in

practically telling you now no put your mind at rest no this is not what this means but make no mistake those agendas are real so there was an attempt to depopulate the some of society

predominantly China and there is also at this point now an attempted takeover of society and that isn't about killing us it's about controlling us and being able to mine our energy as in what can we offer society what can we what can we give to the world how can we burn ourselves out and give all our our strength and our energy and our time and our focus to a master race or to a group of controllers if you like that's what this is about it's about mining our us as if we're a resource like how you know we do with animals what humans do to animals and have them all in battery farming or making them work the land on making racehorses run until they're falling over we exploit animals and these individuals or beings are doing the same to the human race we're just simply seen from their perspective as a resource and a big resource an important result it's like a farmer with all his crackle that farmer knows the cattle is worth money and is a resource and can you imagine several farmers fighting over a herd of cattle it's kind of what's happening now we've got several individuals groups and beings fighting over the human race and what they can officers know that isn't about killing us having said that there are seven groups within this larger group that all have different ideas and all want different things to happen and some of them believe that there's too many people on this planet so they want to depopulate this planet and that's what we're violence was about it wasn't just about that so as I say because then

we've come as I apologize for bombarding you and to those who already know this stuff I apologize for going a bit slow I will take you much a bit bored so that's basically where people are right now as this is occurring and where their minds are so with thee with this virus and the shutdown of society and I'm going to talk more about both of those the intention was from different groups to either depopulate some of society or and this is more of an agenda put society in a situation where they can be easily controlled now everything over the last well since 2012 really certainly since 2013 and in certain ways even before that everything that these individuals have done and I will talk about who these individuals are everything that they have done lately since 2012 it's certainly intensifying in the last three years certainly since to 2017 everything that they do has been backfiring on them they think right this is what we're gonna do and this is how it's gonna work out because they can predict everything and they have technology to predict things either through through their own working black magic if you want to call it that or actual scientific tech whatever it doesn't really matter they have the ability to plan things so they're thinking this will happen and then this will happen and then this will happen but this technology that they have only sees a certain amount it's a lot but it's also in many ways limited and there are certain things that can't see and what they can't see

is this backfiring what's going on so they try this they try ABC and Blaine right from a we'll get to D and that's great and then they get to a and B and then all of a sudden everything goes wrong for them and all completely changes and they end up with lots of what they wanted and that's what's happening now this is supposed to quieten us dumb us down keep us separated keep it in a situation social isolation and fear and what it's actually creating is unity togetherness compassion and awakening a massive massive awakening like you wouldn't believe

now this awakening I'm speaking here to the like workers in the truth it's awakening it's been many years you all know about it you knew it was coming you're well-prepared for it and many of you are probably very excited that it's finally here because you can be vindicated in what you've been saying for many years everyone's been looking at you as the crazy crazy in foil hat person and finally those people are turning to you and saying what's going on and they're looking at you like someone who has information that they aren't getting anywhere else and they're right you do and now is the time to give them that information but don't let my advice would be I want to tell you what to do but my advice would be careful with that excitement understand it completely fine you feel vindicated that is not what this is about this is not so that we can say to the rest of the world I told you I told

you this is gonna happen you called me  
crazy you said I was a thin formatter  
and I'm right that is not what this is  
about this is about the people who have  
been trapped within the system and who  
have been lost and our job is to help  
them now like never before make no  
mistake like never before  
and I really emphasize that the truth is  
the light workers the starseeds the  
spiritual teachers the holistic healers  
you are needed like never before and  
that will continue for an indefinite  
period of time  
but right now you you are crucial you  
are the individuals on the front line  
sitting at home doing this from your  
computers or your telephones or writing  
whatever you're doing you are the ones  
on the front line in a very different  
way to the individuals who are literally  
on the physical front line so  
try to temper that that sort of  
excitement about being window painted  
and I'll come to that again in a little  
bit later because there are a lot of  
truthers that are not quite seeing the  
picture as it is they're seeing a lot of  
the picture but they're still looking at  
a polarity and whilst yes on the  
physical level  
it's a polarity seeing the polarity and  
only the polarity is not going to assist  
us to manifest what we need to because  
whilst it's all occurred in the higher  
dimensions we aren't in the higher  
dimensions in this reality we need to  
get there and we need to manifest it so  
as I said I'm tweaking on multiple  
levels because there is so much going on

now to the total newcomers you probably don't understand a thing I get said and that's fine and I'm as I said I apologize for bombarding you so you're here to find information and I am NOT going to say to you I told you now some people might some people might say I told you all this was happened it was gonna happen and you may be you know just in a complete state of shock but you're gonna want to know information now that the person in your in your circle there will be guaranteed at least one person probably more but at least one person in your social circle possibly in your family possibly one of your friends that you've known for years but you've always thought of us a little bit odd and a little bit strange and got some you know weird conspiracy theory kind of views and you've kind of kept away from them these are the people that you need to turn to now because they do have information now within that you're going to have some people that really are unbalanced in their thinking and haven't quite got what into any kind perspective it's gonna be down to you even though you're a newcomer to all this it's gonna be down to you to work out who is telling the truth who is deliberately giving you misinformation who is thinking of your own best interests trying to help you who is trying to help you but they've got it all wrong all I can't help you with that here in this talk I have other videos I've been on YouTube for 11 years I have other videos that have been made in

advance for this time to assist you in fine tuning your intuition so that you can tell who to listen to having said all that to you the newcomers person you need to listen to more than anyone right now is yourself if you are falling apart and you are scared and you're crying and you feel in grief just do whatever it takes to heal those emotions and feelings and then come back to the point where you think okay I'm centered them enough now to be able to work out who is telling me the truth about this and who is not and that's the journey that you are on and to everyone whether you are a truth or a light worker a star seed and awakened individual or a total newcomer you all need to be self pair right now I need to follow this myself and it is not easy because we are bombarded with information from all areas and we want to share it we want to find things out we want to know what's going on we want to deliver what we know is going on but we need to do self care we are human beings we need to eat and sleep and you know do some meditation or exercise or whatever it is that you do to get centered and now that you're at home you can find ways to do these things with loads of internet stuff going on but it's important to take self care right so right now we are in an unprecedented Great Awakening now the individuals that are waking up I've always referred to these individuals as third dimensional individuals now it's not a derogatory term it just means you are in the physical world and you are only seeing

the physical world which the these beings that I speak to which are nice beings this is two newcomers and it doesn't matter what really who I'm speaking to the issue here is the information this physical world is referred to as the third dimension so that's why you're called dimensional individuals there our truth is out there truth seekers conspiracy theorists but call you the newly awakened individual the unawakened individuals normies which is a little sort of cute way of saying normal these are just words to describe you and it should never be derogatory because as I said right at the beginning if you're here now watching this video you are not really a Normie or a third dimensional person or newly awakened because you've always known this stuff otherwise you wouldn't have found this information you set to awaken at the time at the right at the last moment of the Great Awakening that's what what was supposed to happen for you guys for all the already awakened ones yes you know I always say third dimensional some people called normies you've got the woke and the normies that's very truthful um level I refer to these individuals as third dimensional individuals fourth and you know if you followed mobile and you know this stuff so what I would say to anyone who is a light worker starseed holistic teacher truther your role right now is to reassure your family members reassure your loved ones help as much as you can in the communities bogs you have a following get out there do whatever you can whether it's giving information

whether it's reassuring people that is the most important thing and so I'm going to talk about why reassuring people and assisting them to balance and stay centered is so important I'm going to discuss the spiritual level so you know those who know my work will know exactly what I mean anyone who's a newly awakened individuals listen take it on board it doesn't matter if you don't understand what I'm going to say but I'm dressing well the fifth-dimensional individuals and some what the truth is as well it's time for you to kind of look at the bigger picture even more than perhaps you have so what we're looking at on the first time level and high dimensional levels is a timeline war however having said that it's very important not to see the word war as war it's not to see the word battle as battle and not to see polarity as polarity you know what I mean we are aware that this is a war a battle and it's a polarity but we manifest the timeline that we want to through an understanding of unity so we don't reject battle and war but we integrate it and we take it into a place where it is a unified bliss charge love source so if I talk more about this polarity this timeline more as you will probably be aware the nine have been talking for quite some time well over the last year but certainly in the end of 2019 about the end of the Cabal Illuminati deep state whatever you want to call it from that point if you would say the negative elite or we could say the service to self groups so the end of them the fall

of the Cabal now what that meant and what that means is that in the fourth dimensional infrastructure there was a core generator known as and this has to be metaphor because we are speaking here about energy you could call this the the main generator of the black box system any of you out there watch Star Trek go watch Star Trek look at the Borg and the Borg cube you know this is all this is all truth out in fiction I'm not saying that this looks like a Borg cube what I'm saying is that this is an energetic structure that I'm talking about the other name that the nine have given to the structure is the red spider and this is a web an interconnected web that creates a fourth fourth dimensional template of a reality creating an artificial or artificial intelligence matrix reality but then it spread down into the third dimensional system that core generator went offline some time last year all go follow my videos you'll see when that happened so they were they were without the core generator the main core of the black box if you want to watch Star Trek and the Borg they would have liked and dismantled the Queen but still had the workers going without the Queen to focus them all so that's what happened the core was dismantled and the red that's the red spider with this man called so what they had to do was then bring in backup generators in order to feed the AI dark matrix system to create the mirrored reality in the third dimension so these have been breaking down because there hasn't been a core structure

there's then breakages within that system so the group is no longer able to sort of have that hive mind anymore like in the Borg that hive mind has had to rely on these backup generators and this has left those that work for the teams of light the grid workers the planetary great work of the blackboard workers this has left them in a situation where they have been able to go in and clean up that fourth dimensional template make sure that the fifth dimensional template which is above the fourth or superimposed within the 4th deeper than the fourth fractal eyes within the fourth they have been able to ensure that that has been a clear and clean system and it has been the entire time because it's the fourth dimension and that's how the fifth lemon tree works they've been able to throw around ten points 1/6 I mentioned in seventh I mentioned all of this work has been gone for many many many years thank you to all the people that came before us that have prepared us for this time so all this has been in place so what's been happening over the last year is the fourth dimensional matrix system has been powered by backup generators and much clearing has been done and around the time of 2012 and that's what the whole funny thing was out 21st well we were able to finally switch into and it was occurring before from 12 beyond it around the 11 11 11 2011 and a little bit's before that but we were able to switch timelines so what that means is obviously you know if you're a light worker and star seed but

truth is that following this as well I understand to newcomers this is really probably just sounds insane but just stick with it

um so to those who are still with me here a timeline is the outcome for an individual or the outcome for a group or the outcome for a planet many of you will have heard of the law of attraction so you can be the law of attraction for yourself the law of attraction for a group or the law of attraction for a planet or its solar system or galaxy or whatever you know so for many thousands of years this planet has followed a time line which is

every timeline has like um a configuration like a code within it and that code has like a core message the nine call this we caught templates of a timeline or a diamond core template that's actually what they call it the diamond is the is the structure this is about sacred geometry the crystalline structure so the the the core template for a timeline is basically the goal of that timeline so say I wanted to manifest going on holiday to Spain not gonna happen right now I know that but say I was doing this six months ago I want to manifest a holiday so I would use the law of attraction with the focus going on holiday to Spain so I'm gonna see myself in Spain and I'm gonna make a vision board Spain I'm going to learn to speak Spanish whatever it may be I'm gonna focus I'm gonna create a focus and intentional focus and then allow my Spanish holiday to manifest okay so what's occurring within a

timeline a global and planetary timeline  
is a core template and the core template  
the core goal the cool reason that has  
been the focus for the last many  
thousands of years and potentially going  
right back to the beginning of our known  
history you know since the times of  
atlantis and lemuria and ancient  
civilizations that's a whole other  
subject the core kemp a has been what  
the nine are calling the armageddon kemp  
eight what that actually means is when  
you don't be afraid by this i know it's  
difficult when i'm using words like that  
but this is the armageddon new world  
order template and what that means  
is those that have been in control of  
this planet and the timelines for this  
planet they're the ones i was talking  
about earlier who are seeing individuals  
as something to market something to mine  
to get energy from and  
can they use them like a farmer with  
their sheep their cattle you know that  
she how can they how can they use that  
person's power so that's been the core  
goal is control of humanity enslavement  
of humanity beyond you it's been working  
not to the degree of what's happening  
now but unbeknownst to all of these  
newcomers and all of these individuals  
that may not know this this planet has  
already been enslaved this is not about  
us suddenly out of nowhere we've been a  
free planet and all of a sudden oh my  
goodness once we're enslaved right now  
that's not what this is about this  
planet has already been enslaved and  
very recently was freed that's the story  
we are we have been freed from the

enslavement for the first time in  
millennia thousands and thousands of  
years what's happening now is those that  
want to enslave us a really really cross  
and angry that's the metaphor that some  
of them just don't feel that kind of  
emotion but either way they don't like  
it that we're free and they want to get  
us back to where we were so what I'm  
saying here is we had a time line jump  
so the core template is the Armageddon  
new world order temp template which is  
enslaving of the human race  
it's been in place and that's what the  
black box red spider program was it was  
a false artificial intelligence matrix  
that is designed through dark magic  
creating a specific consciousness holds  
a code in place in the fourth  
dimensional system that then feeds into  
the third dimension they were able to  
keep this growing and generated through  
the enslavement of the human race  
because the human race did not realize  
that they were enslaved and they were  
able to continue to control the  
narrative like could take away from the  
human race what they would have been if  
they'd been left alone and left to grow  
naturally there wouldn't be any Wars  
because humans don't  
once a war they don't want to fight each  
other that's only when they're triggered  
into fighting to the world wars both of  
them were created and I know that's a  
really really tough thing for people who  
are newcomers to here yes both world  
wars were engineered were funded were  
paid for all of this everything that's  
ever happened all part of this new world

order Armageddon  
timeline now around the time of 2012  
which was predicted in the Mayan  
calendar is the end of the Mayan  
calendar predicted to many many years  
and all this information handed down  
within the tribes we together because so  
many people were awake and I'm not just  
talking about being woke to the truther  
side of things I'm talking about being  
awakened to one's own intrinsic true  
nature and true power as in why are we  
here what does being human mean where  
have we come from you know all of this  
this spiritual awakening to our true  
self our true memory and taking that  
into our daily practice those  
individuals have been able to change the  
timeline for this planet and is simply  
manifestation Law of Attraction  
so many people bring the law of  
attraction that they change the timeline  
we're now on a new timeline that  
timeline has a different core template a  
diamonds core temperature proper grammar  
core template the Armageddon the New  
World Order is not really a diamond it's  
a different structure it's more well it  
doesn't matter but it's it's not so  
we're now on this diamond core template  
and this is a new goal this goal is the  
paradise timeline the ascension timeline  
so we've got the Armageddon New World  
Order timeline and we have the Paradise  
ascension timeline you can also call  
this the Golden Age timeline if you want  
there are many names for it now there  
aren't just two timelines there are  
multiple timelines infinite timelines  
but these are two core timelines so

that's why I speak about them being  
- so we switched over around 2012  
2011-2012 we switched over and it took a  
while to sort of move from one timeline  
and manifest another there is a sort of  
a change over time period you don't do  
it all in one night but over time the  
consciousness of the lights workers and  
the starseeds and it spiritually where  
individuals individuals who are living  
in love compassion service they were  
able to hold that consciousness and hold  
that light through their spiritual  
practice and their lifestyle unplugging  
from this fourth dimensional dark AI  
matrix system and they were able to hold  
the energetics for this new timeline now  
despite what's happening right now with  
the coronavirus situation and the  
shutdown of society the nine assure me  
we are still on the ascension paradise  
timeline this hasn't changed we are  
still on that timeline it's important to  
know that so we are still on the  
ascension paradise timeline the nine  
have assured me of that so what's  
happened is the service to self groups  
they knew that this was going to happen  
they had technology to be able to see  
potential futures and they knew that  
this was going to happen they tried to  
mitigate as much of the awakening as  
they possibly could in a certain time  
scale so they have a race against time  
if you like we do not because where  
we're going is about no restrictions and  
it's about freedom and we don't have to  
be restricted to certain deadlines but  
because deadlines create stress and pull  
the human spirit down because they're

constantly having to follow that and freedom is about choice and not having deadlines it's okay to be responsible but the system has been set up to pull people down so that they cannot give their best it's been that way for as I've said many many many years so what the darker groups the service of self groups have done is over the last few months as they've been losing these this core unit this red spider this black box core unit and they've been using backup generators they wanted to create a new artificial intelligence fourth dimensional dark matrix structure in order to continue to bring down this oppressive system into this third dimensional physical reality but they didn't have enough power to do that the power comes from the consciousness not only of their group but of the siphoned energetics from the people they weren't able to siphon enough energetics from the people because the people are waking up not all of the people but because so many people were waking up to the light and becoming sovereign with their own energy fields they were unable to be siphoned they were immune from hijacking my first book masters of the matrix teaches how to become immune from hijacking so that you do not have your energy system siphoned by this group so to many people got to a point where they woke up and they were sovereign with their energy systems they couldn't be siphoned so the the services self structure in the fourth dimension was losing even the backup generators they just simply were not creating enough

power so what they had to do was create a situation where they could create mass fear and panic on such a high level that that would continue to generate a new AI structure so amongst themselves they've decided as to how this would occur how do we create this mass fear amongst the people and they've used technology to look at timelines

I said their time their technology to look at timelines is vast compared to the technology most people have on this planet as to what they can see around them but it's limited compared to the remote viewing ability of the fifth-dimensional landscape because they can't see the fifth dimension they can only see like a shadow light from it it's like all they can see is light they can't translate it so they have to go with what they're seeing in a fourth dimensional timeline sense which is the consciousness of humanity unawakened humanity and enslaved humanity they cannot see the consciousness of awakened humanity but some of them and these are intelligent people and psychic people make no mistake they are not you know just because they've lost their power structure within the fourth dimensional field it doesn't mean that they are you know stupid these are extremely intelligent extremely clever people and they have been able to second-guess to a certain extent that a fifth dimensional energetic structure which is the consciousness of the fifth dimensionally thinking individuals they've been able to second-guess it just checking that still according as it is so they've been

able to create a scenario based on what they're seeing when I say they I'm talking about the top tiers of this structure this structure is known as the deep state and when we say deep state we're talking really about politicians and and media personnel and that sort of thing known as the 13 families or the family this this is a group this is for newcomers as well this is a group of individuals that have been growing in power behind the scenes for many many many years they now have a large family if you will a large network that encompasses the world every single country most some countries don't have much of them there it is it's all predominantly happening in America and Europe and Russia and China I would say the bigger players but its worldwide so you look at your governments and you think well just because America has done this and say China's done this and Italy's done this that doesn't mean to say the UK will do it because we all have completely different independent governing systems this is what people think and that's why they're misled and that's why when things happen they think why are they doing that it's because there is no individual government in this this NWO timeline is Armageddon timeline it's not about creating a one-world government we already have a one-world government it's already there it's just that you can't see it it's behind the scenes it operates behind the scenes it controls all the government structures what their aim is is to be

able to step forward and create the one-world government for you to be able to see and the only way they can do that is for you to ask for it for the people to say look this situation is unacceptable and we need a stronger governing body to sort this situation out and they're like no okay do you know what let's give you a one-world government like yes thank you that's what we want that's what they're waiting for

it's called problem reaction solution if any of you followed David Icke he's pretty much the master in teaching what this means they create the problem they wait for the reaction and then they offer the solution it's very clever it's very very predictable and it's what they've done for thousands of years now for the last few years since 2012 this has not been working for them as well it's been working a bit because there are so many individuals that are awake now they're not giving them the reaction they need so they had to work out how do we sort of siphon the world to create this new fourth dimensional structure ai structure because what they're trying to do is get back on to the Armageddon New World Order timeline if they can get back on to the New World Order Armageddon timeline then they've got it in the bag and that is world domination enslavement of the human race siphoning of the human race energy and passing all of that to beings that aren't even in the physical form I'm talking about extraterrestrial beings and these are very dark entities now that sounds

dreadful to a newcomer but there's a really good side to it too because there are also light entities of extremely wonderful blissful love and utter compassion and they have a whole team of people on this planet too which is why I'm saying this is a spiritual war we don't use the word war though because when you think of it as a war then you go into polarity and the idea is to remain in unity simply because the Paradise ascension timeline is a unity timeline the Armageddon the New World Order timeline is a timeline of a separation it's the opposite of unity which is what they're trying to do so they had to decide how to get mass fear on this planet there were several different scenarios that could have occurred within this group and as I said it is made up of non-physical entities extraterrestrials and also physical people just like the light we have beautiful wonderful higher dimensional light beings and angelic structures and the most amazing wonderful extraterrestrial beings surrounding the planet with love and and they have all their their teams on the earth and there are people who follow them I'm one of those people which is why I'm able to talk to you because I get my information from them and that's how come I know about the dark groups because they show me them and they talk to me about them and teach me and they've been doing this pretty much really my whole life but certainly since - since 1993 and then that wrapped ramped up again big time in 2008 so

that's when I got online so I've been online 11 years so for 11 years I've been hearing about this information and it's they've told me more and more and more and obviously the last few days it's like oh my goodness I can't even download the information quick enough right

so within this dark group that I'm calling a service to self group which is non physical and physical beings on the third dimensional level on the physical level we know these individuals is deep state Illuminati cabal global elite globalists they have all these different names and it's the same group but within this group there are sub factions this is something new that the nine have only really kind of covered over the last few days there are sub factions meaning that within this dark structure there are smaller structures and those sub factions when they had the core generator the core black box generator and the the red spider the core of that AI fourth dimensional matrix network they even though there was infighting that was just a certain I won't say unity because it's the wrong word but there was a cohesive hive mind there and there was a certain order that needed to be followed because the core generator was in place so if you want to translate this into a physical sense there would have been a group or a person a leader or a group of leaders that would have told everybody else what to do and even if they're all fighting amongst themselves they have to answer to this leader or group of leaders that group of

leaders or leader was taken out of the picture I don't know how but the the the fourth dimensional presentation of that is the end of this red spider and this black box core so that's gone that that leader of that group of leaders is gone leaving them to fight amongst themselves and giving them a little bit more power because it's like well we don't have to answer to them anymore you know we're gonna do this and other groups are like no no no that is not the way we want to play this we need to do it like this and then they're like well no we're gonna do that so they're arguing they're all have the same goal Armageddon new world order timeline creating mass fear within the human race

the globe but they had different ways of doing it a different agenda so now I come to this virus so what the nine are telling me here is there were three different core reasons as to how a core sort of seeds to this creation of the virus if you've watched the video from the nine that's already been released about this then you'll know this information but I'm going to kind of break this down a bit more one of these core core seed points to this virus was a net worth of natural means what happened was in Wuhan in China there were they were keeping animals in a situation where they were in extreme cruelty and the hygiene levels were extremely poor and you know there's a great darkness around this area due to the fact that the exploitation of these animals was just appalling I mean I appalling okay and

this contributed this natural evolution of deterioration of hygiene created the proliferation of pathogenic structures and a virus so there was a virus there naturally created but wasn't really doing any major worldwide harm it was contained in this area in the animal kingdom at the same time something else was going on there was some kind of scientific facility somewhere near the vicinity of where these animals were being badly treated to put it mildly this facility was creating bio engineered were doing two things one was bioengineered germ warfare so they were engineering viruses and other pathogens to use as a weapon to bioengineered weapons through pathogenic means and at the same time there was a facility that was engineering life-forms so taking DNA from various life-forms splicing it and putting them together so creating hybridized creatures from animal sea life plant life I'm assured there was no human DNA involved in this particular one I'm talking about but that has been used elsewhere I don't really know about that cuz I haven't looked at that bit um now I don't know if this was two separate facilities or one facility that was doing this it doesn't really matter but within this this creation of bio engineering as a weapon and hybridized animals a virus or pathogen was created this was created as a as warfare to be used in war in China so I don't know what the reason was or who they wanted to use it against it was kind of like an insurance policy should they ever need it it was

never meant to be released from that intention to own the people it was not intentional from the people who created it to release it on the people that was not the intention of those creators but as I've said there's all these sub factions and then a different sub faction knew about the virus and they did want to release it on the people the people who created it did not intend it for that and it was acquired or stolen or however and it was released into the atmosphere at the same time as these this other path natural pathogen was also released from these unhygienic situations and Cruelty to Animals and everybody's talking about it coming from bats or some other creature actually what the nine show me is the V the creature the animal that actually ended up passing it to the human chain because the virus that was released into the system was meant to go into the human human human body into the human system but this other one so there's these two viruses which somehow merged into one I mean I'm just not a biologist and I just I'm funny really difficult to explain what I'm seeing but anyway the animal that this came from wasn't a bat it was some kind of hybridized snake I mean I'm really sorry to say that is horrible now I am aware that potentially and I'm gonna give you this information potentially this is metaphor and the nine are trying to show me the hybridized snake is in fact the service of self structure itself being presented to me as a hybridized snake because of the reptilian kind of

the reptilian DNA within the non-physical beings that are influencing these physical individuals but I haven't had confirmation from the nine that this was fully this is a full metaphor I'm actually been showing a literal animal and it looks like a snake I've never seen anything like it it looks like a snake but it's got other DNA in it and it's got an intelligence that's like more than a snake i I just don't know how to explain this creature but this creature somehow got this virus or held this virus or mutated this virus and bit something or someone that I think was human as I said this could be completely metaphor but the nine have not confirmed that to me they there have not could they've just shown me the images and they're telling me the reason why they have shown me the images is because isn't for me to interpret it it's for you to interpret it I'm giving you the images of this hybridized snake it's actually a sort of weird pink color so it actually looks like a snake with human skin and weird little whiskers like a cat and with funny-looking eyes it sounds dreadful yeah not very nice to look at but the imagery whether it's metaphor or real is to be given to you because someone who hears this information might know what it means so that's from the nine it's kind of bypassing me and in many ways this is irrelevant it really doesn't matter where this came from but I'm giving you the whole picture here so that you can just take this away do with it what you will take what resonates

leave the rest that sort of thing so I'm not sure how this deliberate release of the laboratory created bio engineered weapon and this hybridized snake looking animal biting someone I'm not sure how these two merge together but it was like a convergence of events so it's not like oh my gosh this was a deliberately created virus well yeah but there's a natural bit to it and you can't really say this virus was natural it's nature yeah it is but there was a deliberate bit to it as well a created bit so it's it's both everyone's talking about is it was this deliberately created or is this natural it's both but having said that even the natural component to it isn't really natural because you shouldn't be treating animals like that in the first place so these are normal animals and then somehow there was a um a contact between normal animals and the hybridized animal so it's almost like these these infected animals were released I mean maybe the virus was actually in the infected animal and wasn't in a little vial and released into the into the air I'm not sure how this occurred but that's kind of what I'm showing this this is the information I'm showing as to how this got out so this got out into the Chinese into China now the sub faction that somehow acquired either the virus or the hybridized snake or however they did it had several agendas and one is depopulation but not to the point where they actually kill everybody because they need to mind the energy they feel that the planet is overpopulated that

the planet cannot regulate itself and that humans are are completely disregarding nature by over populating and continually breeding and they are these people are disgusted with people who have children and they their agenda is to stop all these humans being born because they don't really like humans and don't want these many of them so this group had an agenda of depopulation as I've said but they started with China because there's such an overpopulation in China but also there's some kind of economic financial component to this as well which is a kind of like almost like a jealousy of China's economy but not just a genin a jealousy a fear that the Chinese faction of this service to self group my overtake the American Stroke European faction because the American European faction of this service to self group has been kind of the top dogs and China were up-and-coming and kind of taking them over so this is a battle and it's nothing that bit it's really nothing to do with us at all we were used the people were used for so many different reasons on so many different levels to create fear to create this fourth dimensional new AI matrix but on a physical level this is to enslave the population deep deep populate the agenda but also who which of these groups are going to get control of planet Earth because as I said it's like a farmer with their cows it's like I want those those cattle they are mine by right this is what they're thinking I own them because I was born into this highly

important godlike family so they believe that they have rights above every other human being on this planet and they believe this totally this is masses of people who believe that we are literally just cattle and they are the rightful owners of this planet if you like and then there's these other groups that also believe that as well but they they think well why should you be in charge because now that the core black box generator red spider has gone they're fighting amongst themselves so in all of that this is kind of how the virus got out and there's a whole other story as well so that story is how viruses spread science don't really doesn't really understand immunity science thinks that you have to get a virus and actually experience it and get ill to create immunity that's true but what they're not looking at is a collective immunity that occurs in a telepathic on physical sense it works like the the hundreds monkey effect which is the thing where you you know you have one monkey in one country and that monkey suddenly realizes how to drop a hot potato into a cold potato into a hot spring heat it up and then eat it and it's delicious for the monkey and then right over the other side of the world another monkey like four days later or a week later picks up this thought that if they drop this cold potato in this hot spring I'm probably telling this story completely wrong but anyway then they can eat it and it's gonna taste nice what I'm trying to get at here regardless of what actually happened

with the monkeys what I'm getting at here is telepathy  
Collective mind not the hive mind like the Borg  
this is the natural collective mind so there's a natural realm a natural collective consciousness that is normal and part of God's creation if you will  
I'm speaking here to newcomers as well and then there's this other artificially intelligent artificial intelligence structure that's created to mirror what is natural so when it comes to a virus when that virus is first released into the human Kingdom there's no kind of collective immunity yet so it's very virulent and very strong now there was another component to this and that's to do with 5g I won't go into that fully but you can go and read my book a transmission from the nine the black box program and the rose gold flame as antidote which does talk about what the black box programs are and one of them is 5g chemtrails vaccines and cetera 5g what 5g does is it scrambles the electromagnetic coding within the energy system of the body that effects all different actual physical systems within the body and one of the things it does is depress immunity I mean it's not just doing that  
it's doing all sorts of other things but the immune system can't function properly when the energetic system of the body is broken in this sense and the pathways have changed it's long and complicated and it's all in that book the black box program the rose gold flame is antidote the story as to what

5g does is all in that book so there's no need to go into that in here other than to say 5g depresses the immunity so in China they already had some 5g systems set up so you would be looking at somewhat an immunocompromised society I'm not saying the whole of China but there were some individuals there that were already under the influence of this 5g system so it made the virus even more able to take hold so what you've then got happening is as soon as the people in China started to get this virus then this immunity instantly starts to create within the the higher collective consciousness so it's not just ideas as in one monkey oh I've just dropped my potato into a hot spring and then thousands of miles away at the other side of the planet that that monkey picks that thought up it's not just about thought it's about anything energetic within that person that holds a cohesive structure so thought may or may not be depending on how its thought has a cohesive structure so immunity the body starts working to fight a virus that is then a message that's broadcast out and the collective the reason why this happens I'll tell you the reason why this happens is because of nature itself nature does not want to wipe out its humans the planet and the humans are one and there is no way that the natural world will wipe out humanity and leave itself without a human on it the humans are guardians for the earth for the planet Earth anyone who Tunes in or psychic or spiritual channeled material

and feels the energy of nature no this we're one with our environment were at one with nature the planet would never kill off its people so what I'm saying here is a global pandemic is not possible that is what I am saying there is no such thing as a global pandemic where every country is affected with a killer virus that's gonna wipe them all out that is not possible in nature but it can be engineered and made it to look like its nature and that is what has happened what's happening right now is an engineered situation it is a false narrative there is no pandemic yes there's a virus I've just explained that there's a virus and if that virus you know if you're in China in the early days you potentially get very very ill and die people have died it's it's true I mean there is a virus but there is not a global pandemic because nature won't allow that the only way a global pandemic can be created is by it being engineered now two world wars were engineered because world war is another thing that humanity as a collective consciousness would never create because the ecosystem of planet and humanity doesn't want to wipe itself out it's a living cell it's a living organism cells do not want to die whether they're actual cells whether they're viruses whether they're planets or people or human systems they do not want to die every single cell at the tiniest microscopic level has a core template a diamond core template for life for life and consciousness and existence anything outside of that is not natural so these

wars were engineered as  
as I've said years ago and so they are  
thinking the dark service to self  
structure cabal are thinking well you  
know it worked for us before we managed  
to create Wars why isn't it working now  
they do they aren't able to see that  
higher fifth dimensional structure that  
is within the collective consciousness  
of the awakened individuals they're not  
understanding how any immunity works if  
they watch this video they will now and  
that's another reason why I am only  
getting information 24 hours before it's  
happening because there's things yet  
going on that are going to happen and  
I'm not being shown what they are  
because if any of the dark cabal service  
itself members watch my videos or use  
their technology to see the collective  
consciousness of the starseeds they're  
gonna know what's happening so no one's  
telling anyone what's gonna happen next  
but we're being told enough to get  
through 24 hours at a time so it's kind  
of like take each day as it comes kind  
of energy right now for everybody so the  
Cabal are remote viewing but they cannot  
see that higher dimensional 5th  
dimensional energy or the consciousness  
of those individuals they can't see the  
immunity because the immunity works from  
a 6th dimensional level it's not  
physical they they have a view into a  
fourth dimensional system I'm using a  
model that the nine show me many  
different channels we use different  
models so they'll say they'll say the  
fourth dimension is the fifth dimension  
and they might call it different names

but the model that I use is the Cabal deep state service to self entities have a viewpoint into the entire 4th dimensional structure with a very small amount of fifth dimensional sight and until it becomes just pure light and they can't see it so they don't understand the immunity if they did they never would have thought that releasing a virus would depopulate the planet because they would know that that isn't possible so the immunity starts to build as soon as that virus is released into the population that immunity starts to create now in order to draw that immunity down into you you need to have a certain tone within your body at a certain frequency within your body and and the emotion of that is compassion love caring if you're that kind of person you're naturally drawing down these higher collective consciousness templates speaking to the newcomers if you are a nice good person you will be able to raise your immune system is basically what I'm saying here to the spiritually aware individuals I'm going deeper because the immune system is not just that located in the body the immune system is located in the collective consciousness we are a telepathic race we are not confined to the body we are able to be unified that is the fifth dimensional frequency so we draw down this an immune template so that when we get this virus yeah we might be really really ill with it but the immune system already has the pattern and what it has is a pre mater pattern the immunity that

the scientists are looking at that they call herd immunity is the physical pattern of the immune system but there's a higher immune system it's a pre-matter immunity and it will sit there and draw down into the energetic system of the body it doesn't come into the body meaning you won't have any antibodies to it if somebody tests you to see if you are immune using their tests that test is going to come up negative you won't be immune because you haven't had the virus so they think that you're not immune and that's why they think you have to get the virus to be immune what they're not seeing is the energetic immunity which is kind of works like homeopathy and bark Flower Remedies that sort of thing it's an energetic immunity created through the collective telepathy when you get the virus then that energetic immunity if you are in a state of flow a good person kind loving that doesn't mean you know if you scream and shout at your kids or have a big round or something that you're not going to get immunity that isn't what it means it means if you are a person who's who is a kind person generally a nice person that's the majority of humanity to be honest a lot of people acting in awful ways because they're crying out for love and help they are they are angry because they haven't been given any love you know that that again is a deliberate program to keep humanity and saved anyway that's going off the subject somewhat so what you would do is you draw down this

immunity but it kicks in once you pick up the virus then the immunity is no longer an energetic template it comes down into the physical body and begins to work and that's how a normal immune system works if there's a problem there such as an underlying health condition affecting the heart and lungs and maybe maybe the blood sugar not necessarily doesn't mean somebody with diabetes is naturally going to just succumb if they get this virus that they can still draw down that immunity it might be more difficult there are other underlying conditions as well central nervous system conditions neurological conditions that may be exacerbated if they catch a virus they'd be like that with any flu any bronchitis any cold you know all getting ill with a virus or a cold is going to trigger other health conditions that doesn't mean that your actual immunity is affected I have seen lots of people get very concerned because they have an autoimmune disease so they think that auto-immunity means their immune system is broken and they have no immunity absolutely that is not what it means there actually is no such thing as autoimmunity the nine have told me this years ago I don't need to go there but the medium Anthony William describes this situation very very well his information about autoimmunity is the truth it's accurate I've been given that information myself long before I ever discovered Anthony Williams books so your immunity is not compromised if you have what is classed as an autoimmune

condition what I'm talking about here is severe lung problems and severe heart problems you may be obviously more at risk of having a problem with this virus even with the energetic immunity but you would be the same with the flu and with a bad cold or with bronchitis or any any illness you would need to be careful that you don't get any of those things this corona virus yes it works differently because it does appear to target the lungs yes it works differently but it's just a different strain there have been many many corona viruses lots and lots of different corona viruses this one was created obviously so it's got other stuff in it and we've got this whole sort of snake DNA and goodness knows what but because it's not natural the the the immunity to it mitigates all of that this this sort of extra component it can't sustain it can't sustain this it's it's not natural code and then you would need something like 5g implemented anyway to actually to press your immunity so that there are just multiple layers to this whole virus story so what I can say ultimately from what I hear from the nine is a it's true that if you have underlying health conditions affecting the lungs and heart possibly the blood sugar maybe not depends on your age and the rest of your health or if you are an elderly vulnerable person yes this may affect you badly but for the majority of people this is just gonna be like a nasty flu for some people it'll just be like a normal flu and for other people they will barely

get any symptoms so all of that's kind  
of out there anyway that information  
that's all true  
does this virus warrant a pandemic  
even if you didn't know about the dark  
agenda well no and that's why you are  
going to see over the next few weeks  
lots of alternative doctors come forward  
lots of alternative scientists come  
forward people who understand viruses  
come forward nutritionists come forward  
because they will all be sitting in  
their homes thinking this isn't adding  
up I know about viruses I know about the  
immune system I know about health I know  
about nutrition why are we on lockdown  
so there's going to be a lot of people  
coming forward and the dark cabal are  
not going to be able to stop the flood  
of new information now one thing they  
could do shut the internet down so that  
we can't even speak to one another  
however if they do that they severely  
compromised their own game to the point  
where it's not going to be much chance  
of them achieving the New World Order  
without the internet because the  
internet systems how they're getting  
their information out and how they are  
creating fear now if they don't continue  
to bombard us with news reports which  
uses an internet system yeah I guess  
they could do this with television  
only but most people are digital most  
people use the internet to access the TV  
so if they cut the internet what's gonna  
happen is for about twenty four hours to  
two days people are gonna be not oh my  
god we've got no internet I'm really  
upset or they might be afraid thinking

gosh we can't go out now and now we have no internet but then what's gonna happen is people are gonna venture out their front door they're gonna start talking to people outside say all the internets off and they're gonna start mixing again and then they're gonna forget about this and then their fear is gonna go so it's gonna work without the internet they have to have the Internet to feed the fear what they're probably going to do is regulate the internet however many many truthers and independent content creators are aware that that might happen and they've been told that this might happen a long time ago so they're prepared with backdoor channels and other ways there will always be away as long as the Internet is up and running there will always be a way for people to get their messages out there and these doctors scientists and physicians and biologists they're all going to come forward and flood the market and they're gonna be competing with all the cabal scientists because this cabal group this deep state group service the cell group have got their own scientists and their own biologists who are spinning the narrative and doing what they're told so that's the story about the virus so my message is you know do what do what we've been told to do for now you're better off kind of retreating from this anyway stay at home go out when you can follow up follow the advice play the game this is not going to be forever this is not this is temporary now what I will say is there's a whole other story coming in here and and that is to do

with the group known as the Alliance the white hats and all the information coming in from the backdoor social media channel Q that's very big right now because there's lots of people who are sitting there thinking this is a fight between the Cabal that's the deep state the cabal deep state and the Alliance white hats now the Alliance white hats are a group of individuals who are who are aware of the Cabal who know what the Cabal are doing and are taking measures to stop them from doing what they're doing this gets complicated because I can't give out information that I've seen that might compromise any kind of plan that the Alliance white hats might have because obviously they are they are on the side of humanity so the people we that we want to succeed people are seeing this as a fight between the Cabal deep state and the Alliance white hats and what they're thinking is that this entire shutdown even the virus is all caused by the white hats alliance they released the virus deliberately made sure it wasn't that bad only a few people would you know get it so that they could get us all indoors and take over and arrest the Cabal now whilst there's some truth there you are going to be misled to the bigger picture if that is how you are thinking because you are in polarity it's like this is the Cabal deep state they're down endgame no more power the Alliance are in control the white hats are in control this is their doing and they're taking them down it is not as black and white

as that and I have seen people on the forums say the event is here it's really happening the white hats are taking them down be very careful about that viewpoint take a step back and really listen to your intuition because I am being shown from the nine that this is not exactly what is happening here there is truth to it I'm not saying that there isn't but if you go to black and white and to literal you are losing the bigger picture this is very important and I'm directing this at the truth community because you are part of the Lightworker system as well and regardless of whether your spiritual or not we need you guys to be focused in a balanced state so let me show you what the nine I'll tell you what the nine have said about this situation so within the Cabal deep state you have these sub factions of arguing groups and then you've got this alliance now I'm gonna talk a bit about how they came about well but they've been there for a long time and and you know there are many many people loyal lots in America this is very centered in America this this alliance part of things this is very centered in America which is I'll explain why all the presidents of America for many years have been cabal deep state operatives members of the family so that they could control the system from the presidential point of view I've spoken about this before there there have been independent presidents Eisenhower and Kennedy they were independent and good people trustworthy people they would they were taken out or silenced or or whatever I

don't I haven't seen the bigger picture there what I'm what I have been focusing on more is what's been happening over the last few years in the American political system I've got people say to me why are you so interested in American politics we're in the UK and they don't understand that what happens in America the rest of the world is going to follow because that's where the Alliance and the white hats are predominantly or operating from this is this America is leading the way in this you know they are the New Atlantis and they are the central point so when when there was an election between Obama and McCain each each result of the election showed a different timeline and the timeline with Obama winning was much better than the McCain timeline because McCain was very entrenched in the deep state as a completely controlled deep state cabal member whereas Obama was different I mean there was some potential independence that was taken away very quickly after his election and he was then rather than it rather than owned by the deep state he was coerced bribed and hijacked if you like but either way it doesn't matter that you know they were both within that but the Obama timeline was better than the McCain timeline by a longshot at that time moving forward then we had Hillary and Trump which was even more divide and I'm telling you now I whether you hate Trump with you you can't stand him that doesn't make any difference how you feel about him it doesn't make any difference to what's actually happening

here because it's all tied up together  
if Hillary had one what's happening  
right now the nine are calling this an  
attempted planetary takeover on the  
ground on the ground in the physical  
reality so what's happening this is not  
a isolation from a virus this is a  
attempted planetary takeover worldwide I  
don't want to scare you but that is what  
this is now the key word here is  
attempted attempted it's being attempted  
right now but it isn't it this isn't a  
planetary takeover dead-set this is an  
attempted to take over and what's  
happening the fourth dimensional realms  
is as I've said we are still on the  
ascension paradise timeline with the new  
fear that's harnessed and panic that's  
harnessed from humanity they've been  
able to hold this new artificial  
intelligence matrix dark grid in place  
on what it's doing is it's trying to  
pull down or pull off course the focus  
on the Paradise ascension timeline it's  
trying to pull it out of the way to  
allow this fear to act as a as a  
generator that can be siphoned in order  
to put the false the new false  
projection of the Armageddon New World  
Order time and it won't be the  
Armageddon new world order timeline it  
will be a false projection of it so it  
will look like the end of times it will  
look like a new world order take over  
and that's kind of what they've got at  
the moment the reason why they can't  
actually switch the timeline it's  
because they've lost the red spider  
they've lost the core black box and  
there are too many awakened individuals

so they can't switch the timeline we're still on the ascension paradise timeline and we will be but they are infiltrating that timeline they can't get into it but what they're doing is weighting it down pulling it down with the fear fear of the people as long as we as people as an entire humanity remain in the best version of ourselves that we can be as in loving kind compassionate helping one another community spirit coming together questioning the narrative and waking up to actually what is going on and once we know instead of getting furiously angry we need to trust but there are people in positions that are able to carry out what the people ask for now there are two lots of people in those positions if the people ask for we want a vaccine we want it delivered as quickly as possible we want to mass vaccine to combat the virus then that's what some of these individuals can then deliver and these individuals would be the Cabal because the vaccine it's I mean without going into the vaccine itself is a hundred times worse than the virus because the immunity isn't a natural immunity built against a virus and I'm not saying that there wouldn't be a turnaround if the vaccine was taken I mean there could well be a natural response I haven't seen that far because as I said I'm going on this 24 hour in advanced step-by-step information from the nine so that what I'm seeing what they're telling me cannot be remote viewed by the Cabal what I'm saying is that if you're asking for a vaccine the Cabal can step in and give you that if you are

asking for tighter restrictions because there's been a riot somewhere or people have gone and stolen too much toilet roll if you start screaming for tighter restrictions the Cabal can come in and give you that but there is another group and if you say no we do not want a vaccine we do not want tighter restrictions we want the truth about this virus we want these doctors these scientists we want them listened to when we ask for that when we demand that that is when white hats Alliance can step in and everything is in place for them to do that so when people are saying oh yeah the white hats the Alliance have got this they have got this but they need to be in place it's us the people that have to call them in the reason being is they are going to be assisting us to move into the Liberty template freedom that the nine have been talking about for so long they are going to do this through justice and legal channels it is not going to be done in a an untoward manipulative way like the Cabal they don't use those techniques but it's not correct to say cabal are over they've got they're done for and the white hats have got it it's it's the Alliance that did it that are telling us to stay indoors because they are gonna start clamping down on me on the dark ones and everyone's gonna know the truth so we all just sit indoors watch the TV wait for it to happen no because you're sitting on your laurels and that in itself is a misinformation disinformation program if you are

thinking that the wire has are in control of all of this that's disinformation on that level this is the Cabal but there is a fight stroke battle there are many groups and factions all looking to come in the power is with the people if we stand up together in a unified way we can make our our our needs and desires and requests known through legal channels through proper I don't know what these ways are but the proper channels on this planet that are of justice then we will be calling in the right people and then you can sit there and say yeah the white hats have got it but don't just sit there and think that that time line is a dead cert right now now it is a dead cert from the higher dimensions somebody asked me yesterday why do we need to do anything but gender surely it's written in the higher dimensional structure yes because we're on the ascension paradise timeline bang we're on it however we're in the third dimension we're not in the fifth dimension we're not in the sixth or the seventh yes we are energetically we are there with our spirit our soul our heart and all of those beautiful blissful spiritual practices but on a third dimensional physical level we're here in this dimension and what is occurring now is an attempted planetary take over from the Cabal this isn't the white hats that have asked us to stay indoors and that are cutting our social freedoms but that's not to say that they're not there and that they're not part of it it's difficult for me to say what the plan is

and I'll rate I'll tell you for why the  
plan is not going to be put out there on  
the internet if you are seeing a leaflet  
saying the white hats are gonna do this  
and at four o'clock on Tuesday they're  
gonna come in here and at five o'clock  
on the Wednesday they're going to  
announce this or that this is  
misinformation this is disinformation  
the plan is not put to be put out there  
in its format this is to be given to  
individuals in a coded way in a in a way  
that you can go out and find out for  
yourself and yes you may share but when  
you're getting coded information there  
are different interpretations of that  
code so the nine are saying to me it's  
very important for me to tell the people  
to tell the truth is that whilst they  
are right in one sense we don't want to  
lose you and make you think oh my god  
it's the Cabal this is the new world  
order this is the one-world government  
that's it we're done for please don't go  
there because that isn't true we're on  
the ascension timeline but we have to do  
it we have work to do and what the line  
is saying is you are all trained you  
have been trained since birth for this  
moment whether you are a star seed a  
light worker as  
actual teacher a holistic counselor a  
nutritionist a doctor a nurse

[Music]

in the media because believe me we have  
light in the media in the army we have  
light in the army where you know in the  
military wherever you are you've  
been trained for this for since birth  
and the dark cabal the Dark Lord's or

whatever you want to call them then the non-physical beings they have shown them this they they they they know that there there is light everywhere they have to tread carefully because they don't want to trigger an awakening of light but what they've gone and done is trigger an awakening of light it's happening now this is the Great Awakening so we have multiple layers going on here multiple layers and to actually sit here and give you a black and white presentation or for anyone anyone on the internet to give you a black and white presentation that is not going to be accurate information if you have somebody who you trust is a spiritual leader or or someone who's a speaker who's who's out there that you follow and they are saying look this is what I think it is this is my interpretation and I truly believe it's this however it could be this we need to be aware that it might be that they are the people you need to listen to because this is not set in the way that we are going to access the paradise ascension timeline it's not a set series of absolute steps because we have this dark fourth dimensional matrix structure that is siphoning humanity and pulling down the timeline and there are multiple ways this could go that's not to say the white hats alliance aren't there but if you want to think of it in a in a more expansive way rather thinking these are the Cabal these are the Alliance the these are dark these are these are like these the bad guys these are the good guys the good guys have got it

you know that's just simply too literal to actually get give yourself an expansive picture of what's happening so what you need to do here is think the Cabal in the Cabal there might be some white hats in disguise that the Cabal think are cabal and in the white hats there might be some cabal in disguise that the white hats think our white hats that's more likely that's more the picture we don't know who is who we don't know what group is what we are not given that information what we are given is teachings to fine-tune our intuition so that when we see someone speak on media when we hear a story either on social media or or in the mainstream news we are able to access the intuition to know whether this is an information that is accurate is this information disinformation is it partly true and partly Tritton not only true is it partly true in part not true that's why the nine has have been teaching you to raise your vibration and access your intuition for so long as their main core teaching now there are other components to this as well for example well one of the components is as the world goes into panic and fear they are going to come across their own shadow they are going to draw up trauma that's gonna do one of two things it's either going to awaken them which is great because they're going to be looking for videos like this or videos similar and they're going to be learning whether they're learning about a financial reset or a global restructuring or whether they're

learning about politics or whatever it  
is extraterrestrials spiritual beings  
meditation whatever facing their traumas  
at this point will wake them up in some  
people and I am just so so proud of  
these people how they've handled it are  
doing it so quickly they went into panic  
and fear for city of 24 hours and they  
came out of it and they're dealing with  
the situation so the generation of that  
fear is not as grand as the Cabal  
expected it to be just like the virus  
they expected the virus to be worse and  
to affect us worse and for more people  
to die the ones that actually released  
it they expected more people to be  
fear and it's it's not working like they  
thought because they couldn't see the  
light they looked at the time lines in  
the fourth dimensional field only which  
is the subconscious awareness of  
humanity they are not seeing the higher  
consciousness of humanity they can't see  
that it's beyond their ability to remote  
knew because it is immune from hijacking  
it's immune from being remote viewed so  
their being is blindsided and is shocked  
in many ways as the general public you  
know it's a frustration like why isn't  
it working why isn't it working it's  
working to a point don't sit there  
thinking it's not these powerful people  
and they are attempting to take over the  
planet that is what they are doing and  
we need to be aware of that without fear  
it's not going to help us if we think  
this is in the bag it's fine  
there is no virus and at the end of the  
day the white hats have got this the  
Cabal are going down and everything's

hunky-dory it's not going to help us to do that we need to see what is the virus what is the threat of the virus how can we deal with it and then we need to look at the Cabal situation and there and the planetary takeover the attempted planetary takeover and see it for what it is and not thinking that it's what it isn't so multiple things they're going on other things yes when the when Humanity faced their collective trauma one thing it will do is wake them up which is fantastic so we want all the spiritual teachers healers holistic teachers scientists and everyone else in place to bring out a series of teachings that will be delivered to the newcomers so that they can get up to speed on this story very quickly give them a disclosure on all levels because the Cabal will not want disclosure and disclosure is going out like wildfire and they will be clamping down and trying to restrict it however there are other groups that are actively pushing disclosure and helping this information to get out there as I said this is a fight that's going on this is not a cut-and-dried scenario we need to get to the manifestation that's in the high dimensional realms we're in the unknown time right now the the end of days the final showdown whatever you want to call it we are we're in that right now it's not as if it's coming around the corner which is what I've been talking about for so long it's here now we're in it and we're going through it and how we go through it is up to us as a people we

continue with our spiritual practice we  
continue with our meditations and our  
and our collective heart soaring bliss  
and knowing that we've got this not  
because the white hats are going to do  
it for us we don't want the Savior  
victim complex and sit back and think  
white hats sort it out you're our Savior  
yay we clap you when you're done we are  
participating in this and we do this  
through the bliss the heart the euphoria  
and the holding of the energetic for the  
ascension paradise timeline at the  
moment the reason why this AI 4d matrix  
structure that is fear generated and  
siphoned from the people cannot pull  
down the timeline or shift into the old  
timeline is because of the starseeds and  
the light walk workers holding that  
energy even with what's happening people  
are still able to access the bliss the  
joy why because they've been trained for  
it they've been trained for it very well  
they were forewarned they knew that this  
time was going to come and they know  
what to do they've known for years so  
the other people that go into collective  
fear and panic one group it'll trigger  
an awakening the others it will trigger  
absolute disbelief absolute horror and  
potential anger those people may be very  
out of control now these are the people  
that are panic buying in the shops  
putting a hundred toilet rolls in their  
trolley and fighting other people in the  
shops over there over there trolley and  
to be honest with you some of this  
information is engineered as well we  
have cabal paid operatives throughout  
social media so some of the fights over

toilet roll is all engineered  
the whole reason why people panicked  
about toilet roll in the first place is  
because an article was put out saying  
toilet roll is becoming scarce because  
people are panic buying and they did  
that before anyone ever was panic buying  
toilet roll somebody reads that it goes  
viral you know - skews upon and they're  
out there grabbing toilet roll these are  
the panics people and they they are the  
people they need us even more than the  
ones that are waking up who need the  
story these people really need our help  
some of these people will go into anger  
and potentially will cause you know  
violence and that sort of thing if they  
do they are basically calling the Cabal  
to come in if you go out there and you  
start smashing things up they're calling  
the Cabal because the Cabal is saying  
aldair there's there's a bad reaction we  
need to deliver the solution and these  
people don't know they've fallen into  
the trap so if you know anyone who's  
liable to go into anger try to assist  
them if you can we can't help everyone  
we can't save everyone I'm touching my  
face by the way I do not follow the  
advice of not touching your face and if  
you're washing your hands regularly it's  
okay to touch your pens um yeah I mean  
obviously not maybe when you're out and  
about or if you're working with  
someone's shop you know if you're a  
checkout operator and you're you're  
touching your face while you're working  
with someone's shopping no but at home  
you can touch your face um yeah so yeah  
I was getting to the political bit that

the the president's so all the  
presidents other than Eisenhower and  
Kennedy

[Music]

all the others have been in the Cabal as  
I said McCain was incredibly entrenched  
within the Cabal I mean it was just  
completely in it as is hillary very much  
so and she was groomed to be the cabal's  
queen if you like if you want to look at  
the Borg black box

the queen is was Hillary you know she's  
in she she was in that position so she  
was groomed to be the leader through  
this and had she she won in the election  
we would have been under an actual  
takeover right now not an attempt to  
take over we would be on the NWO  
Armageddon timeline that's where we  
would be

but Trump won which was the wild-card  
they didn't expect him to and as I said  
no matter how much you hate him he's  
independent he is not cabal he is not  
Illuminati yeah he might be into money  
and he you know he might have a few  
undesirable characteristics as I have  
spoken about before I don't need to go  
into him again but he is not cabal he's  
independent so the Alliance have been  
able to rally round him he said attempts  
on his life they've tried everything to  
take him down they've tried to discredit  
him it hasn't worked we're on that  
ascension timeline Trump is extremely  
important in this whole thing and that's  
why America is kind of leading in this  
because the political system in America  
is led by

Alliance white hats if you like that's

how they've got it in the bag so  
anything that's going on and I can't say  
what the plan is and I don't even know  
and but I wouldn't say too much about  
what I saw because that isn't to go into  
the collective consciousness we know it  
but it isn't for us to see so that it  
becomes seen by the Cabal  
so yeah the white hats Alliance are in a  
good place it doesn't mean they they are  
they've got it in the bag but they're in  
a good place  
they're in a leadership position which  
is fantastic for the rest of us that's  
why when Trump won I was absolutely  
euphoric for this time and anyone who's  
hated him up til now and and you know  
has completely rejected everything I've  
said surely now as you look around and  
see what's happening in on this planet  
surely now maybe you might see that  
perhaps I have a point here but  
obviously the rest of the world are in a  
different situation and you have cabal  
members that are coerced that are owned  
that don't really want to be in but have  
to be they have to do what they're told  
others you know that there's there's no  
one else really as independent as Trump  
I do think there is a potential  
independence in some of the Russian  
politicians there haven't looked in that  
area and some of the other world leaders  
are potentially open to certain things  
as well so it's a whole big convoluted  
story here as to what's going on so when  
Trump got in and he was briefed on what  
was going on he's had to play the game  
he's had to do things that I've I've had  
like workers and starseeds say well if

Trump is so wonderful why is he done this why is it on that he's still got to play the game and at the same time he's not completely enlightened to all dimensional structures you know if I were to talk to Trump about the Ascension timeline it's probably irrelevant to him right now that's not where his focus is and that's not where it needs to be you know is he polarized service too

furs not in the way that a spiritual individual would be but he is independent and that is why we are still on this ascension timeline and that's why I have equated trumped the ascension timeline people misunderstand me and think I'm saying that trumps our Savior and that he is from you know the higher dimensions and he's actually Archangel Michael in disguise or is Jesus Christ or something and he's gonna he's going to actually lead us through to the ascension that's one metaphor it's okay to say it because it's a metaphoric presentation of what is true but it isn't literal trumps got faults and I never said that he is you know our Savior it's us we need to ask for what we want it's very important for us to stand up together in our own respective countries in our communities online and say this is what we want but we can't demand it to the Cabal because they will come in and block that demand we need to go through the proper channels I do not know what these proper channels are but other individuals do and they are to do with justice and they are to do with the legal system the the unhide act legal

system there is a very hijack legal system and there is light in the legal system it's the light in the legal system that will be crucial in this coming time the other thing that will occur is a financial change I don't get that much information from the nine other than we are moving to a new economy of light what is a new economy of light how does one interpret that well we are looking at a change in our financial system the whole structure is changing I feel the aim here from those that hold the Alliance whitehat influence is for the system to change without crashing

I feel that from the Cabal it is a case of whatever it takes for their agenda to a car what they're looking at is crushing part of the system making it look like it's crashed and then keeping as much as possible for themselves so it is a very sort of take take take energy from there from the white hat alliance it is a share share share so you know I don't know how this will manifest there will be I am told experts in fight finance and I've been told this for many years in fact I do have a video on my channel called the new economy of light which explains what's kind of happening there will be maybe several systems there may be a barter system going on for a while amongst the light workers once we're able to go out and about we may be able to swap trade for food and that sort of thing as I said there are multiple timelines multiple possibilities within that one timeline being influenced by this darker cabal

and 4-d dark matrix but there's the light is shining strong this is a difficult challenging time and it's going to be this way for quite a while with a fall out afterwards so you know we're looking at predominantly the rest of this year going in this way that we are now where the people don't really know what's going on lots of people are waking up lots of people falling apart the healers are being called in the Cabal or in one bit the Alliance are in another bit it's kind of like this for most of it what for a while and then a fallout from it

it's 2021 when we begin to restructure that is when we start to see the first glimpses of a golden age if we are able to come together and manifest what is in front of us because from the third dimensional point of view there's no guarantee there are multiple ways it could go now the ascension paradise timeline is at the moment the core structure that's why it's a diamonds core template meaning it's in the middle of a Sur

it's an end goal and it's in the middle of a circle it's a core template meaning that whichever way we go right now that is our conclusion but we have got this fourth dimensional detachment from the cabal which is pouring this sort of fake broadcast of Armageddon into our paradise timeline so we might be able to see the paradise timeline but when we go through the next few weeks what the people are saying is Armageddon what the people are saying is New World Order what the people are seeing is

destruction we will know that there's something outside of it and this is only the same thing that I've been saying teaching from the nine for a long long time the difference is that it's here now and before it was kind of not as evident I did say in December I think it released a video at the end of last year it may have been in an interview I I don't remember where but I do remember saying that um 2020 will be the year when the world sees tangible evidence of everything that we've been talking about and it's here now this is the tangible evidence and even now there are people who don't think that this is really as serious as it is they might be worried about the virus but they are truly believing that in a week's time maybe two weeks everything's gonna go back to normal and it's not going to go back to normal now it may be that we enter into a controlled reality for a while that we actually do have to live with in a new world order type of regime for a while that is when you trust the light you trust the plan if you want to quote cue and I'm not saying that cue and holds truth what I'm saying about Q is use Q as a form of research as another tool to research and be open about it if you shut it down as a PSYOP you may miss some very very valuable information if you absolutely put your faith in it and believe everything of it you may be losing your Center and put chili drawing some misinformation in because any channel of light any

backdoor channel right now that's coming in on the physical level I don't mean the spiritual teachers but coming in on a physical level is going to have to use a mixed vibratory presentation so that that higher energy is not viewed within that all seeing technology that the Cabal have there has to be it's kind of like double agents triple agents games within games within games you know playing all sides it's that kind of thing so it's really difficult to say about kyu won can't look at Q and say this is absolutely 100% accurate and of the light the energy is of the light but in order for Q to do his or her or their job they can't be like that they have to be present a mixed vibration in in some sense so we need to step back and we need to analyze and we need to look at things and we need to look at all the different things on our for all the different information on offer and that's what this time period is about it's about growth it's about spiritual expansion we can't do that if we put our trust in one thing and make that one thing our Savior we have to look at multiple sources and bring up the sovereignty bring up the power as we make our decision as to what is going on from the sources that we have access to so it's about taking time to process information a lot of people right now on information overload they're not eating they're not sleeping they're absolutely burnt-out they cannot access this information fast enough they cannot get this information out fast enough the truth is our just non-stop work because

everyone they know is turning turning to  
them saying what's happening what's  
happening they're working like they  
never have before really good everyone  
who's at home and that's time now to do  
this so let me go through any more  
points that I might not have spoken  
about I I do feel I'm sorry if  
missed a lot of the newcomers here so  
I'm trying to get information out to  
everybody on all levels so I don't  
spoken about that yeah yeah there's a  
spiritual war if you will between the  
light and the dark  
that's also an oxymoron we do need to  
see this as a battle as a war on one  
level because it is you know we are  
basically in World War 3 this isn't the  
world well through timeline we're not on  
the world will through timeline the  
world will three timeline is an actual  
war but there is a war going on behind  
the scenes a spiritual war however in  
order to access the paradise ascension  
timeline we cannot be in polarity so we  
see we understand that there is a  
polarity that there is a war going on  
between multiple groups and you know no  
one knows who is who and who's good and  
who's bad and all the rest of it and  
some people are both some people are  
double agents  
some people are neutral we've got all  
that going on but we cannot actually  
take the viewpoints and the belief the  
paradigm of war or battle into our  
reality we see it we observe it but  
within us we hold unity so what we can  
say is there is a battle or a war going  
on behind the scenes in the third

dimension but we are fifth dimensional  
we rise above the fourth dimensional  
matrix trampling we are immune from all  
that we move into the fifth dimensional  
energy and the environment there and we  
are unified there is no war there is no  
battle the battle the war has already  
occurred we are already in the Golden  
Age in that place that's where we need  
to go that's why somebody has said  
surely it's already that code that that  
that patterns already written in the  
higher dimensions and it's written  
within us because that is where we go  
also that raises the immunity and that  
gives you that draws down the template  
for the immunity for any virus  
potentially also even for a vaccine to  
handing on the individual and how how  
much they can do this and this is kind  
of known as the placebo effect but much  
much much bigger and much more inflated  
it's actual complete control of one's  
own bodily system it's done through the  
golden mean it's done through the Qi  
energy it's done through the Fibonacci  
sequence vibration I know I've lost the  
newcomers here I am sorry but to you  
what I'm saying here is meditation  
centering and feeling bliss that's kind  
of what I'm saying but those who are  
following me this is also a cure and I  
absolutely mean cure if you can get it  
for this virus should you catch it so if  
you catch the corona virus  
the cure is actually through sound but  
it isn't sound that we hear with our  
ears it is the reaction within the body  
to sound and to tone it is a vibration 9  
were teaching me how to do it the other

day it's about taking bliss into the heart allowing it to come right up into the heart chakra to actually go out into the higher heart chakra and to circle around your body in the energetic system and through the body you then hold this tone and you allow that to vibrate at the frequency of bliss so this is bliss work it's not just the emotion of bliss is actually the complete vibratory state of bliss you can do this through yoga yoga nidra hypnosis trance work Gong baths working with high-powered energetic crystals you take yourself to that point that is beyond the fifth dimensional work you are moving actually into the seventh dimension and the sixth I mentioned when you do this that there is no battle there there is no war there is no polarity is absolute unity all is done now the more people that go there a you get your immunity to the virus B you can actually cure the virus and I'm not saying you do this once the virus will be gone in an hour this is a continuous work you would do this continuously throughout you having this virus or any virus any flu anything you do this this work this toning this can be accessed through foods as well you would be looking at raw organic foods that hold the natural structure so you need to access um non hybridized fruits and vegetables they hold that tone within it's very profound in coconuts and coconut products I realize and mushrooms as well I realize it's very difficult to access foods right now however if you're in that place and you visualize the abundance of

the foods then you can draw those into your reality and you'll find somewhere around you that has these foods or you may be able to get them in supplement form or powder form the information about the baseline nutrition is all in my most recent book lessons from a living Lemuria so yes that's that's where we would go to find the Bliss activations and when you're there you are it's not a case of the Ascension the ascension paradise timeline being a goal you are in it as you anchor it into you you put it into that same place where immunity goes into the hundredth monkey collective consciousness and it's in that higher light that cannot be seen by any technology that the Cabal have and it instantly it uses beyond the speed of light speed as to how it moves across that grid so it's much slower when it's an immunity to a virus but it's instantaneous almost and uses Stargate wormhole technology when you're in that vibration now if the internet were to go down if our phones were to be switched off I am addressing now all of the individuals that are following this the light workers and the starseeds you will go to this place you will find this bliss activation in your yoga nidra or your meditation and you will go to the telepathy and you will find others there this is a offline website a community gathering within the higher-dimensional fails you will be able to find others there and access information from others as well as like being so we can still congregate and it is crucial essential

we continue to congregate within those realms now I've got many videos you can go back and find them look at the videos that talk about the hyperspace reality the fifth dimensional template you are looking at the garden you are looking at your crystal palace you are going to create these beautiful landscapes and cities within that higher dimensional view point through your bliss practices so if we get cut off via the internet via the phone we go there for the collective gathering now when we do that we create a reality where by the Cabal cannot separate us that's what they're trying to do keep us all apart so that we can't collectively rise this cannot occur at all when people are using the fifth dimensional sixth dimension on seventh dimensional pathways when we use the Bliss practices we unite and we come together that will always occur and if we are cut off from the internet phone and through our social distancing situation it is even more crucial than ever to go and meet the other lightworkers and star seats in that place and you do this often when you do that you are creating the most profound and powerful magic that you can possibly imagine and that will call in the white hats the alliance trumps agender or whatever it is he's trying to do and everything that q has been saying in these codes or wherever your belief may be you don't have to believe in Q or Trump it's it doesn't matter because this is a unification it doesn't matter where you take that so when you do that you bypass all of that neutral

system and that is what is holding the ascension paradise timeline and that is what is creating it and bringing it into manifestation this is global law of attraction and this is community law of attraction and it's a psychic war if you will because you have one bunch creating one outcome within their dark magic and you know their dark magic is powerful they know what to do but they are only able to access the fourth dimension when we work with our bliss practices we create a fifth sixth and seventh dimensional Network and beyond we actually move into a source vibration that can't be seen that can't be hijacked but we're not doing it to beat them we're not doing it to win we're not doing it to hurt them we are doing it because that is why we are here every star seed has been born has been incarnated for this time you know this you don't need me to tell you I'm saying it so that it will resonate with you and that bliss energy I'm talking about that that vibration of resonance that's what you're looking for it's like a tingle that you cannot really put into words so that's the star seeds the light workers now the truth is you can do this as well just sit down comfortably and relax and say whatever magenta pixie said please take me to that place I want to create this timeline you don't even have to do it if you don't want to do it on that level you can do it in your life you can go go help your mother or grandmother with her shopping or dudes help someone in the community and that's the same with the newcomers where is your talent

newcomers to all of this energy where's  
your talent if you're a mother your role  
will be to nurture your children right  
now as paramount priority  
I will tell you for why the children  
naturally hold the Paradise ascension  
timeline within their fields because  
they were born with the configuration  
within the DNA to hold that energy so  
isolating the children and taking them  
out of school on the one hand may seem  
very unproductive and cruel to take them  
away from their friends but these  
children are equipped to be able to hold  
that energy and the Cabal have actually  
made if you like one of their most  
crucial mistakes and it's okay to talk  
about it because it's already happened  
in taking the children out of school  
because when they're at home that DNA  
code of light is going to flourish even  
more because they are no longer under a  
restriction of controlled education  
system so you Mother's you are going to  
find your children flourish right now  
and I'm so proud of some young mothers  
that that I know because they're doing  
fantastic with the children right now so  
get the children nurtured keep them safe  
and reassure them in whatever way draw  
their attention to the the fairies and  
the Angels get some good books going  
draw their talents out you know get some  
creativity going and it's looking good  
with the children obviously not all some  
some of them aren't dealing with it but  
the star seed children with the higher  
configurations already hold the keys and  
the codes to this paradise timeline so  
if you can nurture the children and get

them into their their creativity in  
their bliss they are holding that  
timeline and then all being hijacked  
anymore because they're in the safety of  
their mother's or Father's their  
caregivers so all of that is again again  
something else that's backfiring  
I'm just looking through to see if what  
else I her might not have spoken about  
yeah the the the core structure of the  
dark matrix was was broken  
and dismantled how it actually stayed in  
place was recycling this slavery energy  
this prison planet energy on an unaware  
public and it kept it in place and as  
long as the awakening didn't reach  
critical mass then that core structure  
remained and then of course it did reach  
critical mass if you've been following  
my videos you'll know how that's  
happened because the nine has given have  
given us a running commentary of all of  
this over the last eleven years and so  
that's why they they are now doing what  
they're doing in order to create these  
new generators as I've said everything  
is backfiring that's been happening for  
quite some time because the ascension  
paradise timeline holds a certain  
vibration everything that occurs within  
this reality right now is matching that  
vibration so corruption greed and  
slavery and force can't sustain the  
reason why it's in place is because  
they've got this fourth dimensional  
false hey i grid holding it but they  
have to generate that with the fear of  
humanity if humanity can move out of  
fear and into extreme creativity for a  
new world then that fourth dimensional

new generator will fall and in all honesty with you that is what I see it will fall and but it's gonna take a while and we won't see evidence of that probably until possibly the end of this year or next year 2021 so this will be a challenging year and you are going to be seeing things that others around you don't see the polarity between those that follow the the narrative and those that see the truth is it's like being on two different planets and that's the whole two world split thing you are now completely on a different planet to the people who follow the narrative you don't want to fall out those people and you cannot force these insights on them you will have people say to you you have lost your mind and they may not want to speak to you because they may see you as a threat others are aware of conspiracy theories and just think you're a bit of a nutcase and just don't want to focus on it and they're the people that are more likely to wake up because they've got time to now but there is a huge awakening of individuals who are like this isn't right and they're looking at this stuff as I've said as I've said somebody asked about arrests to me to speak about them all I can say there is the nine have shown me that things are going to be done through legal channels of true and fair justice unhide wrapped justice but we need to get there and we need to we need to take our place as a unified humanity and not demand but ask for this so that it can be put into place arrests don't need to be asked for

that is something separate I I don't see how this is going to happen or when or who but be aware that there are infiltrations within the information about this so you might be told someone's going to be arrested tomorrow and that could be complete misinformation you'll believe it because it's so similar to the truth and you'll pass it all around social media then it doesn't happen and it makes you look very well it takes away your credibility so be careful what you spread around and what you what you attach your your belief to yes there will be arrests yes there already are but talking about how or when or who isn't helpful and I don't know the answer to that question because the nine are showing me an energetic template of justice and the legal channels the unn hijacked non hijacked legal channels and this is to do with Trump and his administration and setup so that's all I can really say about that so you may get more information elsewhere as I said be careful what you subscribe your belief - yeah I've said I've already said don't sit on your laurels and believe that this is a done deal like yay the event is here that that may be true in the higher realities and then live the event can mean so many things I mean in truth the event is a collective awakening and yeah we're going through it but to actually attach oneself to that is misleading and that is the very thing that is infiltrated and where you will find misinformation they are targeting believe me they are targeting

the lights worker communities the New Age communities and the truther communities you don't know who you're talking to when you're out there speaking unless you have some really good intuition going on so what's your interpretation of energy what's your intuition and be careful what you subscribe your belief to be aware on all levels and the other thing that I would say here is it really is time for the light workers the starseeds and the truth is to unite if you haven't before it's really time to now I don't really think I need to say that it goes without saying if you want to know more about that I've done a couple of interviews with Jeff Doughty about drawing the truth is in the light workers together I'm standing by everything I've said in those interviews you can go and watch them they're really quite good actually you know bit me and me and Jeff tout he had a really good sort of them rapport so please go and listen if you're a complete beginner then that's a really good video for you to start with and if you're a true sir and you know any of this spiritual stuff it's a really good video for you two goats and sort of watch and listen to so yes unification is needed now ultimately the unification that is going to hold the greatest frequency for manifestation and collective law of attraction is the Bliss practices and the union within the higher dimensional realities the nine will be bringing forward information about this in the coming days and weeks and giving exercises as to how to do

that they've been teaching me and it's really beautiful and wonderful and we can do this now we have more space to do this now because we are not distracted by a collapsing system we are you know in a place of safety in our own homes so that will hold the greatest energetic frequency to anchor that time line but so will compassion on any level if somebody writes you an email and says I've got no food and you are able to go out in the car with a bag of food for that person then you have added to that timeline hugely so it's that sort of stuff that we that we need right now I think I've pretty much covered from everything in all honesty I'm just quickly going through my notes here to see there's anything I've missed because obviously I know this is a long video but I did want to give you everything that I have been told from the nine I mean I was going to go through these notes but I've not really needed them because I kind of remembered everything that they've told me the telepathic union I'm speaking about and this bliss charged practice it's much stronger now but it really began to build in 2011 and it was fully in place by 2017 so we've actually had three years to perfect the telepathic union and it as I said it was there before that oh I did want to mention the equinox the spring equinox yesterday morning the spring equinox 20th of March the nine said the the reset as in the the shift the change from one world to another one reality to another they said to me yesterday morning starts today on all

levels so  
we're looking at a whole new set up in  
the third dimension and that was the day  
that here in the UK Boris Johnson  
announced that you know we're on society  
shutdown which you know many of us knew  
were coming but that was a huge shock to  
some people I was down at Alicia center  
a while ago and I mentioned that this  
was coming and they thought I was crazy  
that the leisure center you know it's a  
gym and a swimming pool and it's  
exercise and there's no way it would be  
shut down you know I felt sorry for  
these people cuz I knew that it would be  
so that's the third dimensional level  
and yet it's not it's not easy what's  
happening for people it's really really  
not I have gone through that and it's  
very difficult be there for people as  
much as you possibly can  
and we can create social gatherings  
online get zoom set up have some zoom  
chats and Skype chats it's Mother's Day  
tomorrow in the United Kingdom get  
together with your children online you  
know speak to your grandchildren online  
you can you don't have to go out and  
meet you can you you can still get  
together energetically love has no  
boundary and this is another thing love  
is now stronger than ever we've got all  
this fear but love is also stronger than  
ever so there's a huge what was a  
polarity between love and fear is now  
stretched out even more and you've got  
fear here and you've got love here and  
it's so so magnified both those emotions  
are so magnified the reason why love has  
been magnified is because we're

separated from our loved ones we know that there's a potential threat whatever it may be and so we are people are saying to each other I love you I love you be safe sending you love and you know people are in an end-of-the-world scenario kind of way of thinking and so it's love love everywhere and that side of it is holding that ascension timeline there is really I have to say from what I can see and what the nine are telling me no chance that they can switch this back to a new world order Armageddon timeline they believe that they can they really believe they and the nine are calling this the final showdown hacen we can call it end of days entering into that end of day period as I said before and earlier on in this talk the last stands but ultimately the the phrase that really really fits this is the final showdown so the equinoxes year was such a new beginning on multiple levels and because this is happening on the third dimensional level and the fourth they've got their new AI in place and that's now generating and siphoning and everything else we're going into the fifth sixth and seventh dimensional realities we now have new worlds they're now in the fourth dimension they're our thing there are structures called real reality domains the fourth dimension is not all bad it's simply been extensively hijacked now lots of it has been cleared over the last few years the grid workers the planetary galactic workers have cleared much so there is now space for fourth dimensional reality

domains meaning that individuals who don't understand the fifth dimensional reality or bliss practices can actually create social gatherings of love in the fourth dimension without actually getting hooked in by the new AI generated structure and I'm talking perhaps about um online churches you know something that's more fourth dimensional but where people can still congregate energetically without realizing they're actually creating a collective and a gathering so all of these things are yet to come and as I said there are all these different multiple presentations of how all of this will manifest but standing strong is that timeline and I absolutely know with all of my being that we are on the ascension timeline the paradise timeline moving into the Golden Age and whilst I don't see exactly how that's going to manifest and we're not supposed to if we're using law of attraction if all of you listening to this hold that goal then you're adding to that law of attraction I know that that is where we are going and nothing can stop that nothing can stop that but it looks as though at the moment that the Golden Age will begin this this I mean it has already begun but I mean the seeds to this new infrastructure this new financial system this new social system will occur in 2021 it could be earlier I'm seeing 2021 at the moment and it's funny how 2012 and 2021 of the same numbers just switched so you know we had 2012 we had the whole sort of room you know practice around in many

ways although it wasn't it was the actual intention but now it's like in the third dimension now it's fallen into the third dimension but we have to get there we cannot sit on our laurels so I think that's everything yeah I've got through all of my notes so I really hope that this has been helpful what I'd like to say is if you have questions about anything I've said or comments disagreements more clarification please feel free to write this in the comments and I will be coming back and looking through and responding to some of your questions in the coming days weeks however long we will be going through this this time period so do send your questions you know you can either email or pop them into the comment box and I will be reading all the comments and you know I thank you all so much for listening I'm sending you all so much love I will be meeting you there in those higher dimensional cities of bliss and those those reality domains of multi-dimensional fabric and to the newcomers who have stuck with this thank you for listening I hope I haven't completely blown your mind here but if you've listened to the end then you won as I said earlier you are not a newly awakened individual you wouldn't be able to sort of stay through this and hold this this information if you weren't already awake it's just now it's come to the forefront so yeah love to everybody massive love to everybody thank you again for listening I'll be back with more of love by
